BELGIUM AT WAR WITH KAISER

Germans Advance Into Polish Russia—French Won Sharp Fight on International Border.

London, Aug. 5.—Great Britain declared war on Germany at 7 o'clock last night, Greenwich time, and at almost the same moment Germany declared war on Great Britain. Immediately this message was sent by the British admiralty to the British fleet in the North Sea: "Great Britain declares war on Germany. Capture or destroy the enemy." It was reported last night that a great naval battle was already on. King George had proclaimed the mobilization of the British army earlier in the day and parliament had voted \$525,000,000 for emergency purposes.

Paris, Aug. 5.—Two German cruisers have been sunk and one captured by a French fleet returning from Trieste.

Algiers, Aug. 5.—French warships have captured the German cruisers Goeben and Breslau, according to an unofficial report received here.

Paris, Aug. 5.—The French minister of war issued the following note: "The German ambassador has demanded his passports and diplomatic relations between France and Germany have been broken off. "War is declared.

"The first act of the Germans, according to information from a positive source to the minister of war, was to execute M. Samain, former president of the French war society, who lived in Metz, and to imprison all the members of that society."

London, Aug. 5.—The New Haven Deep-sea cross channel steamer route has been closed. All vessels have been ordered to remain in British ports. This, following the news from Aberdeen, is taken to indicate that Germany has already struck on the sea against England and it is feared the latter suffered heavily.

Aberdeen, Scotland, Aug. 5.—A naval battle north of Scotland is reported in dispatches received here. No details as to what fleets were engaged are known, but from the report, the wounded are to be landed at Cromarty. It is presumed that one of the fleets was British.

All physicians were sent from here on a special train to Cromarty under orders from the London admiralty office "to attend the naval wounded." It was not disclosed here whether the wounded were British or Russian, but the news was accepted as definite confirmation of the naval battle reported in the North Sea.

Berlin, Aug. 5.—The German defending forces repulsed an attack in force of the Russian army at Memel, the most northerly town in Prussia. The Russian army entered the empire at the railway and advanced on Memel. The frontier guards interposed no resistance until the fortifications outside of the town were reached. Here the German commander had manned his men supported by a battery of artillery and the Russians, when they attempted to charge, were raked by a cross fire and retreated in confusion. The Russian loss is said to have been heavy.

Naval Battle Raging. London, Aug. 5.—The German cruiser Panther, the warship which was sent to Agadir in the Franco-German Morocco clash in 1911, has been sunk by a French fleet.

SERBIAN CHIEF OF STAFF ARRESTED BY AUSTRIA

SERBIAN COMMANDER ILL.

(Associated Press) London, Eng., Aug. 5.—General Putnik, chief of the Serbian guard staff, is very ill.

The petty politics of the Austrian attack on Serbia were illustrated in the arrest of Gen. Putnik, chief of staff of the Serbian army, who was arrested at Graz, while he was making preparations to return to his country. He was in the Austrian town legally and he had committed no crime. But just as soon as he learned of the strained relations of the two countries he sought to return to take charge of the army of his native land.

HOW HANS LOBERT RACED COW PONY

WORLD'S SWIFTEST BASE RUNNER HAS THRILLING EXPERIENCE WITH PONY.

How Hans Lobert of the Phillies raced a cow pony around the bases out in California is told in the August Baseball magazine. It seems that when the world tour baseball party played in Oxnard, Cal., a unique contest between cow horse and ball player was staged. Here is what took place:

The feat is remarkable because it is the only one of its kind that has ever taken place. It was performed by J. B. ("Honus") Lobert, between the eighth and ninth innings of the game. The question arose as to whether a cattle horse, trained to rapid turns, could beat a base runner around the diamond, and immediately it was proposed to test the matter. The fastest cattle horse in Ventura county happened to be owned in Oxnard and against this wonderful animal, which had a record of 24 seconds to the quarter mile, Lobert (the fastest runner of bases living) agreed to race around the diamond. Interest in the event was intense, as a large portion of the residents of Oxnard are cattle men.

An enormous crowd filled the stand (the game was a close contest, the score 2 to 1 at the beginning of the ninth inning) and, despite their desire to witness the end of the baseball contest, the spectators were completely absorbed in the remarkable race between man and horse. Lobert, smiling and confident, advanced to the plate. The horse was ridden by a Mexican vaquero. After discussing their line of progress, Lobert and the rider moved to the scratch. Klem gave the word "Go" and both horse and man were off in a flash.

Lobert got into his stride quicker than the horse, rounding first well in the lead. At second he was still a yard ahead and lengthened his lead in the turn to about twenty feet. When the spectators saw this great athlete actually leading the flying horse to the third base they rose en masse and their cheers could be heard for miles. It was a thrilling moment and one never to be forgotten. "Honus" reached third first, but only by a shade. Wheeling like a thunderbolt, the horse, forced to his utmost, came abreast of Lobert and flashed past him about two yards from the plate, winner by half a length in 14 seconds. (Lobert's record time for the distance).

Some watcher caught the time of the horse at 13 seconds—but Lobert said he was certain he did not run the distance faster than his record, and as the horse beat him by only about half a length, it is safe to say 14 seconds is the correct time for the race. The cowboys present were elated at the victory of the horse, but at the same time were generous in their applause of Lobert, whose wonderful effort will be remembered as one of the historical events of the county of Ventura.

John said it was a ticklish sensation to hear a horse thundering at your heels, that at second he turned his head to see if the horse was dangerously near; this threw him slightly out of his stride and probably had it not done so, he would have won the race. However, he says he will never try again, as it is too risky a proposition for a man whose profession is baseball. There would be small profit in sustaining an injury which might easily occur in such an event.

Servia Defeats Austria.
Paris, Aug. 5.—A dispatch from Nish, Servia, says the Austrian troops were defeated with heavy losses in a battle against the Servians Sunday near Semendria. The regiment of Austrian infantry, comprising nearly 10,000 men supported by heavy artillery, advanced against the Servians but were repulsed, leaving many of their number dead and wounded. A large force of Austrian troops, aided by a flotilla of monitors composed of twenty vessels, has been trying for six days to cross the River Save to Servia.

WARINC NATIONS HAVE MANY COLONIES

England, France, Germany and Italy Have Many Others Dependent Upon Them—Possession Away From Seats of Government Gives Enemies Great Opportunity to Strike Vital Blows.

Four out of the six powers of Europe which are engaged in warfare have colonial possessions, protectorates and dependencies scattered all over the world.

Austria-Hungary and Russia have no colonial possessions, though the Russian empire stretches through the continents of Europe and Asia and presents a long coast line on the northern Pacific. Of the others, Great Britain has colonies and protectorates the world over; France has colonies and protectorates in Africa, India, China, in South America, in the West Indies, in the north Atlantic, and in the Pacific and Indian oceans; Germany has colonial possessions in Africa and a concession in China.

England's vast empires, India, Canada and Australia; her holdings on the Malay peninsula; her colonies in Africa, and her fortified positions in the Mediterranean, Gibraltar and Malta, put her at the head of the colony-holding nations of the world; they also increase the field of her protective operations in case she becomes involved in war with Austria-Hungary and Germany, and possibly with Italy.

Many of the minor holdings of the four powers with colonial possessions to defend are themselves without military strength. In many cases the protecting power has only very small garrisons on shore, amounting to nothing more than local police forces. This is particularly true in Africa, outside of the French and British colonies, in the Pacific ocean and in American waters.

The continent of Africa presents a notable picture of the juxtaposition of protectorates and colonies belonging to Great Britain, France and Germany.

France has a protectorate over Morocco and her Algerian possessions, facing the Algerian possessions, are bounded on the east by Tripoli, a dependency of Italy. Then comes Egypt, where British interests are paramount. On the Red sea and contiguous to Egypt, is the Italian dependency of Eritrea. Coming down the east coast are British Somaliland, Italian Somaliland, British East Africa, German East Africa, Portuguese East Africa, and then British South Africa, embracing Rhodesia, the Transvaal, the Orange River Colony, Natal and the Cape of Good Hope. On the west, contiguous in the order named, are German Southwest Africa, Portuguese West Africa, the Congo State, belonging to Belgium; the French Congo, Kamerun, belonging to Germany; the Niger territories, a protectorate of Great Britain; French West Africa; Togoland, belonging to Germany; the Gold Coast, a British Colony, and the Ivory Coast, annexed by France 29 years ago.

The following is a list of the Colonies, protectorates and dependencies of four countries involved:

GREAT BRITAIN.
Gibraltar—At the entrance to the Mediterranean sea area, two square miles; military force, 3,857.
Malta—In the Mediterranean sea; area, 117 square miles; military strength, 7,647.

Cyprus—Island in the Mediterranean, 60 miles from the coast of Asia Minor; area, 3,584 miles; military strength, 121 men.

Empire of India—Area, 1,800,000 square miles; population, 295,000,000; military strength, British troops, 75,897; native troops, 163,836, with 35,700 reservists.

Ceylon—Off the southeast coast of India; area, 25,33 square miles; military strength, 1,282 men.

Maldiv Islands—In the Indian ocean, 400 miles southwest of India; area, 115 square miles; population, 50,000; a group of 12 coral islets.

AUSTRIAN RESERVISTS AT CONSUL GENERAL'S OFFICE CLAMORING TO GO BACK HOME TO JOIN THE WAR

A few hours after the Austrian
general consul for the United States
in New York had issued a call to
army to the reservists of the Aus-
trian army in the United States the
office swarmed with them. From
far and near about New York they
had come to offer their services and
to learn when they should be ship-
ped back.

Vice-Consul Fridrich Fisherauer,
busy taking names and addresses of

as shown in the photograph, was so
applicants that all other business was
suspended. It has been said there
are 100,000 reservists of the Aus-
trian army in the United States.

These men are under oath to return
to Austria any time the call comes.
It is believed the oath precludes
them from swearing allegiance to
the United States, as would be re-
quired were they to become natural-
ized citizens.

BRITIAN AT WAR WITH GERMANY

(Continued from page 1)

val battle is in progress off the French
coast.

Reports from the coast guard sta-
tions on the Yorkshire coast say that
heavy firing was heard early in the
morning.

The French embassy here received
a dispatch saying that the German
cruisers, which other reports say have
been captured, bombarded the French
naval station at Bona, Algeria, at 4
o'clock in the morning and steamed
away to the west.

Official information has been re-
ceived here that a French squadron
sailed from Brest, with sealed orders
a few days ago.

Germany Declares War on Belgium.
London, Aug. 5.—The special cor-
respondent of the Daily News at Brus-
sels telegraphed Tuesday: "I learn
officially at the ministry of war that
Germany declared war on Belgium this
morning."

Italy Pat on Neutrality.
Rome, Aug. 5.—Germany appealed to
Italy to alter its decision to remain
neutral. Foreign Minister San Giu-
liano informed the kaiser's envoy,
Ambassador De Flotaw, that Italy
would not change its position.

Germans Capture Three More Towns.
Berlin, Aug. 5.—Three more towns
in Russian Poland were captured by
German troops. They have advanced
to the vicinity of Lublinitz, only nine-
ty-five miles from Warsaw.

French Annihilate German Force.
Paris, Aug. 5.—A squadron of Ger-
man cavalry, numbering 125 officers
and men, was annihilated by a French
cavalry force after an hour's battle
near Chavanette, fifteen miles within
the French border. Fifty of the Ger-
mans were killed and seventy-five
taken prisoners. The German colonel
in command blew out his brains.

Germany Recalls Her Envoy.
Paris, Aug. 5.—Baron Von Schoen,
the German ambassador demanded his
passports and left for Berlin at 10
o'clock Tuesday night by a special
train which he boarded at a suburban
station.

The foreign minister immediately in-
structed M. Jules Cambon, the French
ambassador at Berlin, to ask for his
passports and return to Paris.

It is announced by the French gov-
ernment that it wants it understood
abroad that the kaiser's representative
demanded his passports and that
France's efforts toward peace con-
tinued to the end, this government de-
clining to be driven into handing his
passports to the German ambassador
without being requested by him to do
so.

The American embassy took over
the archives of the German embassy
at 6 o'clock in the evening. The Ba-
varian legation handed over the seals
and keys to the American embassy in
the morning. Ambassador Gerard has
taken over the archives and seals of
the French embassy in Berlin. Pre-
mier Viviani expressed his full ap-
proval of the double arrangement.

SOIL EXPERT NEEDED.

Lee county needs an agricultural adviser. Not that the farmers of Lee county are not intelligent farmers. They are unsurpassed in any county in the land. The idea is that there are things about farming that no man who is starting in or who has even been engaged for many years at practical farming, can know. There are scientific facts that can only be discovered in the chemist's laboratory, not in the corn field. If the knowledge of these facts will help the farmers of Lee county to grow bigger crops and make more money, we want that knowledge, do we not?

An agricultural adviser for Lee county would prevent mis-information. It would be his duty to keep on the watch for agents of poor stock foods, fake fertilizers, etc., and his duty to drive the fakers from the county by making public the facts. Do you know, Mr. Farmer, that there are firms who mix common, ordinary peat in their stock foods and in their fertilizers? Do you want to feed your calves on peat, and do you want to buy peat by the ton and pay a big price for it to sprinkle over your land?

An agricultural expert would tell you what firms it was safe to buy from and what kind of foods were good for your calves and your soil, etc. He would come and tell you when to sweeten your soil and when to drain it. He would tell you a lot of things that you ought to know. We firmly believe that the right kind of a soil expert would save to the farmers of Lee county two hundred times his salary every year.

THE GAME OF WAR

How many hundred thousand men are to be murdered (there is no other word for it) to satisfy the ambitions of a few crowned heads? The peasants and the ignorant classes are the poor devils that pay the freight. They are the pawns in this gigantic game which so amuses the monarchs. We and taxes have kept the laboring classes of Europe crushed to earth since the establishment of the nations there and this means that their freedom is still centuries away.

No wonder they flock to America by the millions. Thousands of them are returning to fight for the flags they love in spite of the grudge they owe them. It is a parallel to the case of the dog that loves the master that kicks him or the wife that adores the husband that beats her—hard to understand, but full of pathos.

Few of the European war lords will be in danger of their lives. But their subjects will be mowed down like grain before the reaper. The homes and pitiful little properties will be devastated and if they have anything left it will be taken for taxes. Suppose they do escape death on the battlefield and suppose their country is victorious. What will they gain?

This great war may be the final struggle of the barbarism of the dark ages. That can be its only justification.

MODERN PROGRESS.

After two thousand years of light and learning what a sweet-tempered lot of scientific murderers we have developed into! The most noticeable progress we have made is that instead of using the knobby club or the stone axe to split our brother's skull, and instead of being confined to operations on one brother at a time, we are now able, thanks to the glorious civilization that the light of the twentieth century has brought, to blow them into kingdom-come hundreds at a time. It must have been awfully slow work in the olden days, in the dark ages when a fellow could only kill one man at a time.

We should be thankful that we live in such an enlightened age.

NOW THE MILITANT SUFFRAGETTES.

Now that England and Germany have declared war against each other there is a fine chance to let the militant suffragettes work off their steam. England's fair dames with such destructive dispositions would be a formidable foe to the Germans. It would work to the benefit of John Bull, Esq., either way the battle went, for if the "suffs" win, all well and good and if they are annihilated, who should worry?

NEWS THAT IS TRUE AND NEW.

You may know that the war news you read in The Telegraph is true. When the Associated Press makes a positive statement, it is because they know and because their correspondent was on the ground and saw. It is costing this newspaper a great deal of money for extra telegraph tolls to furnish the war news. We are willing to spend it, however, in order to get the VERY BEST NEWS SERVICE THAT CAN BE SECURED.

The fellow that thinks just because the U. S. is not at war and will probably have to produce for the whole world this nation is so lucky and will profit so greatly, has another think due him. It may help some of us, but in the end it will be evened up and with nearly all the world at war there is no doubt but that all the world will suffer.

The Green River Social club, of which Herbert Conner is president, is a club formed among the members of a community near Amboy. It has been in existence for several years. If it succeeds in accomplishing its purpose it will have done more for Lee county than any other one organization we can name, for this club is responsible for the first movement toward getting a soil expert for Lee county. The Telegraph surely hopes they will succeed.

You will have to tip your hat to the Kaiser, anyway. Anybody that will declare war against Russia, France and England in one week hasn't got any streak of yellow down his back. We admire his bravery more than his judgement.

Superannuated

BY WALT MASON

So live than when the gray is showing on your brow, the boss won't come and say, "We don't need you now; we have a younger man to take the work you do, and so we tie the can, reluctantly, to you." This tragedy occurs a hundred times a day, and it may hit you, sirs, when you are growing gray. Conserve your strength and health, don't paint the village red, and you'll be earning wealth, when snowy is your head. The gray haired man is fired because he's all worn out; he got his spirit tired at wassail and at rout. He burned the midnight gin, and seldom hit the pump; and so a youth steps in, and he steps to the dump. Don't swear by ancient things, but innovations praise; a fossil he who clings to prehistoric ways. The good old world moves on, and you, if you would last, must always face the dawn, nor turn back to the past. The gray haired man whose eyes are ever forward turned is seasoned, sane and wise, and he will not be spurned. It is the played out wreck who can't get down to tasks, who gets it in the neck, as the chicken got the axe.

SULLIVAN TO SPEAK HERE THIS EVENING

BIG DEMOCRATIC CHIEF WILL BE MET AT AMBOY BY SUPPORTERS FROM DIXON.

A number of local democrats left this afternoon in automobiles to meet Roger Sullivan, democratic candidate for the United States senatorship, and his party near Amboy and to escort him to this city where this evening he will address the voters at a meeting to be held at the corner of Hennepin avenue and First street at 8 o'clock. Later he will go to the Elks' club, where a public reception will be tendered him. During his over-night stay in this city Mr. Sullivan will be the guest of Mayor W. B. Brinton, but will maintain his headquarters at the Dixon Inn.

Mr. Sullivan was 15 minutes ahead of his schedule at Princeton, so it is assured that his progress in Dixon will be carried through as heretofore announced. The speech will be at 8 o'clock and the reception at 9, with a reception at the Elks' club afterwards.

Dramatic Roles

PRINCESS THEATER.

Don't miss the fifth episode of "The Million Dollar Mystery," to be shown at the Princess theater Thursday, matinee and night.

In the fifth episode of "The Mystery" President Hit has again striven for realism. The motor boat used by the conspirators was purchased at a price running up into four figures and thirty Long Islanders who saw the boat burning up the waters of the Sound shook their heads at such apparent waste of money.

Sub rosa, Frank Farrington and Albert Froome are glad that the burning and destruction of the boat was staged only once—and that before the camera. Mr. Farrington's trousers were burning before he leaped from the boat and Mr. Froome, while swimming away from the burning craft, was struck by a blazing piece of the boat's hull when the gasoline tank exploded.

Each episode of "The Million Dollar Mystery" has been designed to contain at least one spectacular feature in addition to the stirring series of adventures incidental to the plot.

FAMILY THEATER.

The Family theater will show four reels of pictures this evening, featuring "Mrs. Peyton's Pearls," in two reels. This is a beautiful subject, full of color and adventure and one that will interest everyone. "Hunger Knows No Law" and "The Boys of the I. O. U." are the other two subjects of a very well chosen bill. Notice tomorrow's issue for the announcement of the big vaudeville bill.

MRS. DORNBLASER IMPROVES.

Rev. T. F. Dornblaser of Chicago writes the Telegraph of his regrets that he and his family cannot be in Dixon to attend the Assembly this year, explaining that sickness in the family prevents. Mrs. Dornblaser has been quite ill, but the many Dixon friends of the former Dixon people will be glad to learn that she is improving and that she will soon be well again.

GOOD PROGRAM AT ASSEMBLY TONIGHT

HENRY R. ROSE OF NEWARK GIVES "THE DREAM OF BEN HUR" THIS EVENING.

DIXON MARINE BAND PLAYS

Dr. A. W. Lamar, Southern Orator, Lectured This Afternoon and Appears Thursday Evening.

One of the best entertainments ever given at the Assembly will be given this evening. It will really be something very good.

Henry R. Rose of Newark, N. J., will give "The Dream of Ben Hur," illustrated with slides and auxetophone. The lecture is Mr. Rose's own interpretation of the famous novel and great drama. The slides have been posed for by the players in the magnificent New York production. Ben Hur music on the auxetophone is interspersed throughout the lecture. One number extra will be the reproduction of Madam Schumann-Heink in song.

Mr. Rose is a man with a message and people will be interested and entertained if they come over to the park this evening. People who have seen the entertainment pronounce it most excellent.

Band Concert Tonight.

Please bear in mind that the Dixon Marine band, our own musical organization in which we take so much pride, will play a concert at 7 o'clock. There should by all means be a large audience to greet Director Smith and his band this evening.

Lamar Is Here.

Dr. A. W. Lamar, who lectured to a large audience this afternoon, arrived in the grounds last evening and applauded when the orchestra played "Dixie Land." The doctor believes in getting on the grounds early.

His lecture this afternoon was very interesting. Thursday evening at 8 o'clock he will discuss "Dixie Since the War."

Dr. Lamar is a noted lecturer and story teller. He is sometimes pathetic and at other times sarcastic, cutting, keen. His logic is forceful, his conclusions true. Dr. Lamar is one of the few who represent the old school of Southern orators, whose passing is greatly to be deplored. Dr. Lamar has a remarkable power of graphic description.

Ladies' Orchestra Coming.

Thursday and Friday the Pittsburg Ladies' orchestra will be here and people who have heard these ladies give a concert speak very flatteringly of them. The orchestra will play a grand concert Thursday afternoon, a prelude Thursday evening and Friday evening the evening will be theirs for entertainment. Those who love real first-class music—music that keeps you awake and makes you wish you could live 100 years, come out and hear these ladies of Pittsburg.

Don't Forget Friday.

Friday is scheduled to be one of the very big days of the session. It will be a big day, first, because there will be a big program; second, because the crowd will be large. Friday's program has been well advertised and if advertising goes for anything, and it does, then the attendance Friday will be as large as either one of the Sundays. The speakers for Friday are practical men—men who have given their time to the work they tell about, and if the farmers care for ideas at all, ideas relative to his work, he will attend the Assembly on Friday and get in touch with men like Coburn, Frank Mann, Mason, Tullock, Abbott and Grout. The farmer knows these men and they believe in them.

Saturday and Sunday will be two big days, with programs which will please everybody. Some of the best things have been kept for the closing days. If the weather remains favorable, Saturday and Sunday will be good days in point of attendance. The management is well pleased with the attendance this session, and appreciate to a large degree the patronage given the institution by Dixon people. Sterling, as usual, has been well represented.

Banker Here.

Among the visitors at the Assembly is Herman Sox of Edgely, N. D. Mr. Sox is a banker on a large scale. He is president of three banks. He is here as the guest of his brother, Louis Sox.

Hungarian Orchestra.

Last evening the Schildkrets Hungarian orchestra gave their final entertainment to a full house. They have pleased their audiences with their hand pieces, their solos and their selections from Grand opera. This company has been in this country since the World's Fair, and they have had a chance to see what is needed by the various audiences they entertain before. They will leave Dixon feeling that their entertainment has been up to par, and that the people of Dixon can appreciate music from experienced artists.

"Paul, the Great Missionary."

Dr. Huber spoke Tuesday morning on the subject of "Paul, the Great Missionary." This subject is treated in a very clear, concise manner, telling of the great missionary work of Paul after his conversion. Dr. Huber tells of the influence of the work of this man, and his influence over the church of his day, even to this day. His influence is felt as a potent factor in the Christian circles of the world.

"Religious Psychology."

Dr. Hoover spoke Tuesday on his second lecture on "Religious Psychology." He commenced his work by an earnest appeal that the Bible should be read more, and by so reading every division of the mind could be fed and strengthened for the work to be undertaken. The keynote on this subject was fear—fear that paralyzes the faculties in every way. Eden was entered by fear when Adam and Eve committed the first sin and received the fear of God in their hearts. Saul and Balaazar were good examples of the grip that fear gets over men. They could do nothing, for their faculties were rendered useless by the paralyzing, deadening fear that dogged their footsteps. This subject is very interesting; the various phases of religious psychology that Dr. Hoover speaks of open to us new channels of thought, for our earnest consideration in the control of the mind over the body.

The Girls' Physical Culture Class.

Miss Hill of Rockford has started the girls' division of the physical training work for the Assembly management. The management is always on the lookout for competent instructors to give proper physical training to the youngsters who are in their care. Miss Hill has for several years been instructor of physical work in the schools of Rockford and while there has acquired a knowledge of the human body, its functions, and developments, that the Assembly management feels highly pleased that she can come and take up this work. She has been the girls' physical instructor for several years past. Her athletic work will culminate Saturday evening when her girls and Mr. Bailey's boys will unite to entertain the public with one of their unique entertainments of calisthenics, apparatus work and drills which will please their audience with the prowess and development of their instruction, under the excellent teachers, Miss Hill and Mr. Bailey.

Chautauqua Work.

Tuesday afternoon was an important session in the eyes of all interested in Chautauqua work. After a prelude of splendid playing by the Schildkrets, Dr. Hoover introduced Dr. Troxwell, who delivered the Chautauqua address to no graduates, but did deliver it to the interested people who had come to hear what was to be said concerning the work which has aroused such interest in circles of culture. His opening remarks were regarding the power and scope of the Chautauqua work today. Forty years ago yesterday Bishop John Vincent founded this great movement for the benefit of those whose educational opportunities were slight. He also saw that the old Methodist camp-meeting as an institution was going to be superseded gradually, and he sought some institution that would gradually take its place, so the Chautauqua movement was the result. There are now 3,000 Chautauqua centers in the United States.

CONTRACTS FOR THREE BRIDGES

The commissioners of highways of Harmon township Tuesday awarded the contracts for the construction of three concrete bridges in that township to John P. Harvey of Amboy, he being the lowest of four bidders. The bridges are all to be erected without county aid.

BOWLING ALLEYS READY.

The Brunswick bowling alleys are being nicely refinished and oiled, being placed in splendid condition for future tournaments. An expert from the manufacturers has been engaged there several days and the alleys are coming to take on a very classy appearance. The billiard tournament at the Brunswick rooms will open Thursday, when Eichler and Graff are scheduled to meet.

ELECTRIC LIGHTS FOR LOVERS

Young people who have been in the habit of using the steps of the North Dixon school building as trysting places will find hereafter big 100-watt Tungsten electric lights burning there every night, which it is expected will effectively stop all spooning. The wiring of the buildings has just been completed by Contractor William Cahill and his men, who have also commenced work on the Geisenheimer building.

STEAMSHIP LINE EXPRESSES HOPE

HAMBURG-AMERICAN NOTIFIES LOCAL AGENT DECISION WILL BE REACHED SOON.

A new light was thrown locally upon the European situation Tuesday by the receipt of a letter from the Hamburg-American steamship line by W. G. Kent, their local representative. The steamship line is well connected internationally and is in a position to know the trend of all recent developments in the present foreign crisis. From the tone of the message received it would seem that the situation might possibly be of a more temporary nature than the events of the day indicate.

The communication follows: "Owing to the uncertainty of the present situation our company has decided to temporarily postpone the sailings of all our steamers from all points here and abroad."

"In view of the fact that there is still a possibility that our sailings may be renewed shortly we would appreciate it if you would use your best endeavors to hold all passengers booked by you until a final decision is reached, which will be in the near future."

WILL START ROAD WORK SOON

County Superintendent of Highways L. B. Neighbour announced this morning that he expected E. C. Lange of Henry, who was recently awarded the contract by the State Highway Commission to construct the state aid road in Lee county, to arrive in this city probably some time next week to commence work on the road which will be improved.

GENERAL TYPE OF SERBIAN INFANTRYMEN.

This photograph shows the general type of the Serbian infantryman who will be called on to fight Austria. While the soldiers have been said by enthusiasts to be well equipped, it is not believed by those who have

seen them that they are in any position to make a campaign under modern methods. Many of these soldiers are veterans because they have served against Turkey and Bulgaria. But they were never properly equip-

Real Indians, real cowboys, real cowgirls, real bronchos—every iota genuine—is the guarantee of the 101 Ranch Real Wild West, which comes here on Wednesday, August 26, for two performances, together with a morning street parade.

Truthfulness is the watchword of the organization and the panorama of events unfolded before the spectators is entirely shorn of the artificial and the vivid truth revealed.

The Indian delegation is composed of simon-pure redmen each selected for some physical accomplishment or historical feat. Iron Tail, for instance, is the present leader of every Sioux tribe in America in addition to being the model for the Indian head on the new nickel.

White Eagle, the chief of the Ogalallas, is the foremost orator as well as one of the oldest Indians now living. Chief Eagle Shirt was a boy in the memorable Custer massacre while Yellow Bird is a son of Chief Crazy Horse, who led the redmen against Custer. The Indian children, gathered to complete the village, include sons of famous chiefs as well as the youngest on the various reservations when 101 Ranch agents gathered the Indians together.

The cowboys are all from the ranch at Bliss, Oklahoma. The ropers are all medal winners of the largest frontier day celebration and western stam pede contests. The cowgirls come fresh from the range, while the broncho busters work winter and summer breaking the horses on the ranch.

SERVIAN SOLDIER TO FIGHT AUSTRO-HUNGARY

Here is the Serbian soldier, who must fight one of the six great powers of Europe. There are not more than 240,000 of him, but there are more than 2,000,000 Austrians. He has seen war in the Turkish campaign and those against Bulgaria, and individually he is perhaps more experienced.

MILLIONS SENT U. S. CITIZENS

Government to Relieve Travelers Marooned Abroad.

CRUISER TENNESSEE TO SAIL

United States Ship Will Carry \$5,000,000 to \$8,000,000 in Gold to Stranded Americans in Europe—Thirty-six American Vessels Available to Transport Them Home.

Washington, Aug. 5.—The government relief committee has completed a program for the assistance of American citizens marooned in Europe which was submitted in detail to President Wilson.

Tennessee to Carry Cash.

The armored cruiser Tennessee will sail from New York not later than Thursday, carrying from \$5,000,000 to \$8,000,000 in gold for the relief of Americans abroad, the amounts to be made up by the \$200,000 appropriation from the federal government and by from \$3,000,000 to \$5,000,000, which will be furnished by American bankers for the redemption of travelers' checks and drafts purchased by their patrons and by approximately \$100,000 furnished by friends, relatives and employers of persons now in Europe.

Thirty-six Vessels Available.

The names of thirty-six vessels of American register, including three chartered army transports were found available for bringing Americans home from Europe.

HEARD IN DIXON

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Dixon you hear it. Doan's Kidney Pills are keeping up the good work. Dixon people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townpeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Dixon citizen's advice and give Doan's a chance to do the same for you.

Mrs. J. Helfrich, R. F. D. No. 4, Dixon, says: "While I have never taken Doan's Kidney Pills myself, I can strongly recommend them, and I am glad to confirm the public statement of one of my family gave in their praise some years ago. For a long time he suffered from irregular action of his kidneys. He also had backache and found relief only when he used Doan's Kidney Pills, that he got at Leake Bros.' Drug Store. They stopped the pain and restored his kidneys to a normal condition."

Mrs. Helfrich is only one of many Dixon people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Helfrich recommends—the remedy backed by home testimony, 50c all stores. COUNTY OPTION FOR ILLINOIS IS FORECAST

Dry Leaders Are Told Next Legislature Will Act.

Chicago, Aug. 5.—Anti-saloon league leaders of eleven midwestern states were promised at the Hotel La Salle conference that the next Illinois legislature would pass a county option bill up to Governor Dunne in the next session," said Scott McBride, superintendent of the Illinois department. "I don't think there is any doubt of our ability to pass the law next time. Woman suffrage has cleared the way for us in the fall election. While the women cannot vote for members of the legislature, they will exert a big influence in the campaign. I am confident we will see the next house of the general assembly controlled by the anti-saloon forces."

With a county option law in operation the leaders expressed the opinion that all of Illinois, except possibly Cook county, could be put in the dry column quickly.

FUGITIVE FOUND IN ASYLUM

Man Sought as Swindler in Illinois Is Suspected of Lunacy Ruse.

Mount Vernon, Ill., Aug. 5.—Sheriff Payne has returned here with Reeves, wanted in Jefferson county on the charge of embezzlement and found in an insane asylum in Madison, Wis. Reeves is charged with buying a lot of live stock from farmers and paying with bogus checks for \$11,000. He was in the Wisconsin State insane asylum under the name of Smith Harris, having been committed May 9 from Washburn, Wis., the home of an uncle. His commitment papers indicated that he had no relatives. He has a wife and three children in Bond county, and one of the children was born since he left his family last March.

The commitment is believed to have been a scheme to evade arrest. A former partner furnished the information that led to his arrest.

RAYMOND POINCARE

President of France Whose Country Is at War With Germany

**INSURANCE ON GRAIN FOR EUROPE IS HIGH**

Underwriters Will Assume Risk Under American Flag.

New York, Aug. 5.—If ships already under the American flag want to load grain for Europe they can get insurance, though the rate will be high. That is the word from the insurance underwriters.

The underwriters are not ready to quote a rate for such a cargo. It will depend on the number of American boats desiring to take grain to Europe and their destination. Seventy-five percent of the carrying trade of the world is done by English ships. Therefore, according to the view of several insurance men, if the English should defeat the German fleet in the North Sea, or keep the Germans bottled up there, leaving the north Atlantic clear, these English tramps will continue to go and come and world commerce, with rather high insurance rates, will gradually be resumed.

Germany to Reject British Ultimatum.

Berlin, Aug. 5.—It is semi-officially stated that Germany has decided to reject the ultimatum from England. If this is done a declaration of war is expected.

Opposition to Hinman Expected.

Oyster Bay, N. Y., Aug. 5.—Theodore Roosevelt went to New York this morning to attend the Progressive state committee meeting at the Hotel Astor. It is expected that opposition will develop to the endorsement of Harvey D. Hinman, Republican, for governor.
